

Spreader Bars for Forklift

Forklift Spreader Bar - Proudly operating ever since 1974, ELME Spreader AB is the largest independent spreader manufacturer all-around the globe. They have been a dedicated manufacturer of spreaders intended for different applications like for instance the trailers, handling of containers and swap bodies.

Engineering is done in house by way of using the latest FEM tools and CAD systems. The ELME company currently employs over 125 personnel. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers across the globe.

The product series of ELME comprise many spreaders used for different container and trailer handling operations. A few of their inventory include: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes in addition to a wide array of attachments.

ELME manufacturing and production is performed in a highly automated purpose built factory. In the year 2008, they created over one thousand one hundred fifty spreaders by means of using high quality parts so as to guarantee dependability and excellent standards while offering reasonable prices. Major features of ELME include design simplicity, market reaction and inventive modular spreader concept.
