

TCM Forklift Parts

TCM Forklift Parts - Forklift trucks are a major player in the material handling field of each and every global business. Transporting industrial goods takes place every day on our industrious planet. First innovated as industrial vehicles in the 1930s in the U.S., lift trucks gained popularity following World War II during the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these equipment spread worldwide.

In 1949, established by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Presently the company is simply known as TCM Corporation. Through the years, TCM lift trucks have become a global leader in forklift manufacturing and have built a solid reputation in the business. TCM began building lift truck manufacturing locations outside of Japan during the 1980s and is currently engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

With over fifty years of accumulated technology and expertise, TCM has been proudly manufacturing numerous models of industrial forklifts, making their models known all over the world. With an energetic and strong employees, TCM has been able to continually work towards becoming a future leading material handling company.
