

Hyundai Forklift Parts

Hyundai Forklift Parts - Since the year 1985, Hyundai Heavy Industries has been supplying and making numerous kinds of construction equipment including: forklifts, excavators, skid steer loaders, and wheel loaders. The heavy industry division operates a very efficient product-supply system. This particular system is powered by zero-tolerance policy, perfect quality control and one of the most advanced automatic production lines.

Led by a group of 477 distributors in 110 countries, construction equipment has been launched into the emerging markets of Central and South America, Russia, the Middle East and Africa. Local Hyundai subsidiaries have been established within the United States, Europe, India, and China.

Inside Hyundai's Heavy Industries, the Construction Equipment Division works extremely hard to satisfy and go beyond their client's expectations through constructing effective and reliable equipment and providing great after sales service. Customer Service is further maintained by a commitment to deliver parts quickly to be able to lessen the "downtime" of their customers. Hyundai also welcomes customer suggestions to be able to project their clients' needs and market requirements onto product development, sales policies and production. Hyundai easily competes with the different leading brands within the trade.

Hyundai Heavy Industries really appreciates all of their customers and is really committed to enhancing all their merchandise and service even further. All of the company's executives and staff try to uphold this reality with the utmost commitment in their merchandise and services. Amongst their main ambitions is to be able to help make their clients' business even more successful.
